Soft Skills

- Team Leadership
- Attention to Details
- Problem Solving
- Continuous Learning
- Adaptability
- Critical Thinking

Technical Skills

HTML	CSS	JS
REACT	REDUX	REACT ROUTER
NODE JS	EXPRESS JS	SEQUELIZE
MONGODB	GIT	

Projects

E - COMMERCE WEB APPLICATION - TROPICAL GLOW

- Live Site : <https://tropicalglow.rs>
- Designed and developed a complete e-commerce solution using Express.js for the backend, EJS as templating engine, and Sequelize ORM with MySQL database. The platform includes dynamic product catalog management system and end-to-end order processing with email confirmation. Implemented responsive design principles to ensure optimal user experience across all devices while maintaining data security and performance.

Work Experience

Freelance Developer

JAVASCRIPT DEVELOPER

2024-Present

- Built a real-world e-commerce platform from scratch, handling both frontend and backend development
- Managed the full development cycle, from database architecture to UI design. Ensured order management and email notifications
- Deployed and maintained the site on a live server, optimizing performance and security
- Acted as both developer and project manager, making strategic decisions on tech stack
- Deployed and maintained the site on a live server, optimizing performance and security
- Acted as both developer and project manager, making strategic decisions on tech stack and architecture
